2nd International Seminar on Biodiversity and Natural Resource Management (ISBNRM'25), titled "Past, Present, and Future,"

Preamble

In the face of major environmental challenges such as climate change, the accelerated loss of biodiversity, and ecosystem degradation, it is imperative to mobilize the scientific community, policymakers, and civil society actors to better understand and manage natural resources. Biodiversity is a fundamental pillar of ecosystems, providing essential services such as climate regulation, soil fertility, and the availability of water resources. However, anthropogenic pressures, multiple forms of pollution and increasing urbanization are threatening this biodiversity and weakening ecosystems.

In this context, the 2nd International Seminar on Biodiversity and Natural Resource Management serves as a platform for exchange, dissemination and concrete action. It is part of a collaborative research initiative aimed at exploring the interactions between humans, biodiversity, and ecosystems, while identifying sustainable solutions for their preservation.

26, 28 Novembre 2025, TIPASA

IMPORTANT DATE

Opening of Submission 01/06/2025

Abstracts Submission Deadline **31/07/2025**

Notification of Acceptance 05/09/2025

The Registration Deadline 20/09/2025

TOPICS

Topic 1: Biodiversity and Ecosystem Conservation

Topic 2: Sustainable Use and Management of Natural Resources

Topic 3: Climate Change and Its Differential Impacts on Biodiversity:
Case Studies from Terrestrial and Aquatic Ecosystems

Topic 4: Biotechnologies in the Restoration of Degraded Ecosystems:
Opportunities and Challenges

Topic 5: Pollution, Wastes and anthropogenic impacts on biodiversity
and ecosystems

Abstract Submission

The abstract must be written in English and formatted using the official ISBNRM Abstract Template, and should be submitted online by scanning the QR code provided on the seminar materials.

Publication Opportunity

All peer-reviewed contributions presented at the seminar will be eligible for publication in internationally indexed journals (Scopus and Web of Science), in line with the seminar's thematic priorities.

Participation Fees (excluding accommodation):

Students: 8 000 DA

Academics and Researchers: 12 000 DA

Industry Professionals: 20,000 DA

Support for Algerian Students

A discounted rate is available for non-salaried Algerian students, and limited financial support may be offered based on the available budget and the number of requests. Students interested in applying must submit a written justification to the organizing committee.

Important: Additional details regarding abstract submission, payment instructions, accommodation options, and program updates will be available on the seminar website.
